

Harshit Sharma

Aspiring Software Developer | Android & Web Developer | DSA Learner

PROFILE

Computer Science aspirant preparing for B.Tech (2026 intake) with hands-on Android development experience and strong fundamentals in C programming. Focused on building clean, scalable, production-ready projects and improving software development skills continuously.

PROJECTS

CS Helper — Android Application (Kotlin)

- Built a multi-screen Android app with structured navigation and modern UI.
- Implemented login flow and reusable UI components (clean structure for scaling).

Inventory Billing System (C)

- Developed a console-based billing system with product and billing management logic.
- Used file handling for saving/loading data to make the project practical.

EDUCATION

12th (NIOS) — 2026

National Institute of Open Schooling

B.Tech — CSE (2026 Intake)

Preparing for admission this year
